

PLAYWORKS AT SUMMER CAMP

Playworks partners with summer programs and camps to provide professional development to your team through Playworks Pro. Our professional development opportunities combine team-building, life skills, social and emotional learning, group management techniques and games to create a unique learning experience for youth developers.

Playworks is a national nonprofit that believes in the power of play to bring out the best in every kid. Our mission is deeply rooted in the same type of magic that summer programs and camps offer to so many children each year and we'd love to play a role in making that happen!

During the training our experienced trainer will use safe, respectful, and inclusive games to show the power of...

- building rapport
- using attention getters and signals
- thoughtful transitions
- intentional rules & consequences

Please contact Kara Largent at 602-743-9642 or kara.largent@playworks.org to start the conversation!
