

Recess equipment is essential for building an engaging and empowering recess for students. Your Playworks Site Coordinator will utilize your school's recess equipment to set up new games and activities for recess throughout the year.

Most items include links to S&S worldwide, and a few are linked to Amazon or Gopher. The link should give you a sense of what each item is so you can order a similar item from another company if you prefer. **Double-check the equipment your school already has for recess and order what you're missing.**

Reach out to Playworks MN Program Manager Julian Peota with any questions about this list: julian.peota@playworks.org

Additional Ideas

- PTAs, Community/Corporate partners and fundraisers may be able to assist with purchasing equipment
- If you have a blacktop, consider inquiring with your district to have some blacktop games permanently painted - four square, hopscotch, etc.
- Phy-ed teachers may have old equipment to donate to recess
- Use this code **V3663** for 15% off of the list price on all S&S Worldwide Items
