JUNIOR COACH LEADERS

Between Fall 2021 and Spring 2022, Playworks collaborated with Partnerships in Education and Resilience (PEAR) to collect data across 8 regions involving 710 4th and 5th graders in schools offering both Playworks' Coach program and Playworks' TeamUp program.

Youth participating in the Playworks Junior Coach Program reported statistically significant positive change on all 14 scales of the survey. These scales are: active orientation, emotional control, assertiveness, perseverance, trust, empathy, reflection, optimism, academic motivation, critical thinking, learning interest, school bonding, relationship with peers, and relationship with adults.

CASE STUDIES

Play is an essential part in building safe and healthy communities where children feel connected and invested in the world around them. Playworks has partnered with organizations including the American Academy of Pediatrics and the Calder Center to evaluate our programs and results. We are happy to share those findings and more!
