I notice that students have the language to explain their feelings. They have learned some valuable ways to communicate with their peers. They also have many new games to play on the playground. I love the junior coaches. It boosts their self esteem and leadership skills

# Stories of Impact

## Tip Off Week with the Milwaukee Bucks

Playworks Wisconsin had an awesome Tipoff Week with the Milwaukee Bucks before their home opener! Our students and Junior Coaches were so excited to get to see the Milwaukee Bucks' Rim Rockers and Bango at their school!

The Milwaukee Bucks Foundation has a longstanding relationship with Playworks Wisconsin and regularly partners to promote physical activity, community building, and basketball in Milwaukee schools. To celebrate this great partnership and kickoff the season in style, the Milwaukee Bucks Foundation sent some of their team members out to partner in a series of exciting events for students all over the city.

“Students are more excited and look forward to having recess, especially with the student leaders. The students listen to them and respect their rules when playing games during recess time. I see that Playworks builds such a positive environment to our school and it helps our students to build self confidence, communication, positive peer interaction, and an overall positive attitude.-Teacher, Milwaukee”

## *Junior Coach Leadership Conference*

We recently celebrated the work of our Wisconsin student leaders at the Junior Coach conference! These amazing kids spent the year leading games for younger students, being a role model on the playground, and creating an awesome environment for learning.

At the conference, Junior Coaches reexplored their leadership journey from the year while having fun with our Super Mario Bros. theme!

We had over 700 Junior Coaches!
