

BRIDGE BALL

- 1. Make a circle and connect to your neighbor using your feet.**
- 2. Your bridge is the space between your feet. The object of the game is to not let the ball go between your bridge.**
- 3. Protect your bridge by slapping the ball away towards another player's bridge.**
- 4. Try to keep the ball on the ground.**
- 5. Decide as a group before you play what will happen when the ball goes through a bridge.**
- 6. Good Job, Nice Try = return to the game backwards OR exit the circle and help get the balls until there are only 2 players left, then RoShamBo.**
- 7. Variation: Add more balls of varying sizes and types.**
