

DROP THE COOKIE

1. Players who do not have cones will chase those who do. If they tag them, they yell “Drop the cookie!”

2. The player who is tagged must drop the cookie and run away (becoming a tagger).

3. New taggers can not tag the person that just tagged them. (No tag backs!)

4. The tagger picks up the cone and then other players will now chase them.

5. All cones must be visible.
