

4 CORNERS

- 1. One person stands in the center of the play space and count down from 10-0.**
- 2. While they're counting down with eyes closed, remaining players must select a corner to go to and quietly stand still.**
- 3. Once the center player gets to 0, they must point to a corner with their eyes closed and can't open them until after they pick.**
- 4. If you're standing in the corner that is picked or if you're still moving after 0, then you must sit down in the center of the room/gym.**
- 5. If no one is standing in the corner that's picked, the counter starts from 10 again.**
- 6. The last person standing becomes the new counter in the next round.**
