

# KICKBALL

- 1. Start with two teams. 1 team kicks and the other team plays outfield.**
- 2. Pitcher must roll the ball smoothly to home plate.**
- 3. If a team gets 3 “outs” or scores 9 runs, the teams switch sides.**
- 4. Runner stops on base if the pitcher gets possession of the ball.**
- 5. For safety, players must stay on their feet.**
- 6. Players are recycled if:**
  - They kick 3 fouls**
  - The ball is kicked and caught in the air before it hits the ground. If this happens all other base runners must run back to the base they were on before the kicker kicked.**
  - If an outfielder touches a runner with the ball. (Throwing the ball at the runner does not count).**
