

WOLVES AND BUNNIES

- 1. The object of the game is for the Wolves to catch all the Bunnies.**
- 2. Bunnies can move around the play area.**
- 3. Wolves can also move around the play area if they are not holding a ball.**
- 4. When Wolves have a ball, they cannot take any steps and can only pivot on one foot.**
- 5. Wolves can only tag Bunnies with the ball in their hands.**
- 6. Wolves without a ball should position themselves to tag a Bunny when the ball is thrown to them by another Wolf.**
- 7. When a Bunny is tagged, it immediately turns into a Wolf.**
- 8. When only a few Bunnies remain, they become Wolves in the next round.**
- 9. Remember to tag with a butterfly ball (nice and soft tags).**
